A. Firm Information

The Advisor is organized as a Limited Liability Corporation under the laws of the State of Delaware. AWP was founded in October 2023 and is owned and operated by Alfred M. Tounjian. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by AWP.

B. Advisory Services Offered

AWP offers wealth management services to individuals, high net worth individuals, trusts, estates, businesses, and retirement plans (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. AWP's fiduciary commitment is further described in the Advisor's Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Wealth Management Services

AWP offers wealth management services which include investment management, financial planning and/or other advisory services to individuals, high net worth individuals, trusts, estates, and businesses (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. AWP 's fiduciary commitment is further described in the Advisor's Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

AWP provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and related advisory services. AWP works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio strategy. AWP will then construct an investment portfolio, while utilizing third-party money managers, consisting primarily of exchange-traded funds (“ETFs”) and mutual funds. The Advisor may also utilize, individual stocks, individual bonds, limited partnerships, and/or other types in investments, as appropriate, to meet the needs of the Client. The Advisor may retain other types of investments from the Client's legacy portfolio due to fit with the overall portfolio strategy, tax-related reasons, or other reasons as identified between the Advisor and the Client.

AWP 's investment strategies are primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held for less than one year to meet the objectives of the Client or due to market conditions. AWP will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

AWP evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. AWP may recommend, on occasion, redistributing investment allocations to diversify the portfolio. AWP may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. AWP may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of the Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

At no time will AWP accept or maintain custody of a Client's funds or securities, except for the limited authority as outlined in Item 15 – Custody. All Client assets will be managed within the designated account[s] at the Custodian, pursuant to the terms of the advisory agreement. Please see Item 12 – Brokerage Practices.

AE Wealth Management: Turnkey Asset Management - To help with investment, administrative and operational functions, the Advisor has formed arrangements with AE Wealth Management, LLC (“AEWM”), a registered investment advisor that provides a “turnkey asset management platform” (herein “Independent Manager”). AE Wealth Management, LLC provides sub-advisor, back-office and operational services to assist the Advisor with the management of Client accounts. The Advisor recommends to the Client to use of AE Wealth Management, LLC to help manage all or a portion of the assets of Account[s], based on the Client's needs and objectives, pursuant to an advisory agreement.

AE Wealth Management, LLC provide AWP with investment management and “back-office” (i.e. administrative and operational services) functions that include but are not limited to technology platforms to support data reconciliation, performance reporting, fee calculation and billing, research, client database maintenance, quarterly performance evaluations, models, trading platforms, and other functions related to the administrative tasks of managing client accounts. The Client will be provided with the Independent Manager's Form ADV Part 2A - Disclosure Brochure (or a brochure that makes the appropriate disclosures).

The qualified custodian maintain physical custody of all funds and securities of the account, and you retain all rights of ownership (e.g., right to withdraw securities or cash, exercise or delegate proxy voting and receive transaction confirmations) of the account. See Item 12 – Brokerage Practices and Item 15 – Custody for more information.

Retirement Accounts – When the Advisor provides investment advice to Clients regarding ERISA retirement accounts or individual retirement accounts (“IRAs”), the Advisor is a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act (“ERISA”) and/or the Internal Revenue Code (“IRC”), as applicable, which are laws governing retirement accounts. When deemed to be in the Client's best interest, the Advisor will provide investment advice to a Client regarding a distribution from an ERISA retirement account or to roll over the assets to an IRA, or recommend a similar transaction including rollovers from one ERISA sponsored Plan to another, one IRA to another IRA, or from one type of account to another account (e.g. commission-based account to fee-based account). Such a recommendation creates a conflict of interest if the Advisor will earn a new (or increase its current) advisory fee as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Advisor.

Goldman Sachs Private Bank Select - The Advisor may introduce certain Clients to Goldman Sachs Private Bank Select, a non-purpose loan program made available through Goldman Sachs Bank USA (“Lending Program”). In such instances, the Client's assets in their account[s] at the Custodian will be utilized as collateral for a non-purpose loan. The recommendation of a Lending Program presents a conflict of interest as the Advisor will continue to receive investment advisory fees for managing the collateralized assets in the Client's account[s]. Clients are not obligated to engage the Advisor for the Lending Program. For additional information related to the risks involved non-purpose loans and lines of credit, please see Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss.

C. Client Account Management

Prior to engaging AWP to provide wealth management services, each Client is required to enter into an agreement with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – AWP, in connection with the Client, will develop a strategy that seeks to achieve the Client's goals and objectives.
- Asset Allocation – AWP will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.

- Portfolio Construction – AWP will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – AWP will provide investment management and ongoing oversight of the Client’s investment portfolio.

D. Wrap Fee Programs

AWP includes securities transaction, custody fees, administrative fees, wire fees and Independent Manager fees (“Covered Costs”) together with its wealth management fees. Including these fees into a single asset-based fee is considered a “Wrap Fee Program”. The Advisor customizes its investment management services for its Clients. The Advisor sponsors the Tounjian Advisory Partners LLC Wrap Fee Program solely as a supplemental disclosure regarding the combination of fees. Depending on the level of trading required for the Client’s account[s] in a particular year, the Client may pay more or less in total fees than if the Client paid its own Covered Costs. Please see Appendix 1 – Wrap Fee Program Brochure, which is included as a supplement to this Disclosure Brochure.

E. Assets Under Management

As of December 31, 2025 the Advisor manages \$675,467,357 in Client assets, all of which are managed on a discretionary basis. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into a written agreement with the Advisor.

A. Fees for Advisory Services

Wealth Management Services

Wealth management fees are paid monthly, at the end of each month pursuant to the terms of the investment advisory agreement. Wealth management fees are based on the market value of the average daily balance at the end of the month. AWP’s wealth management fees are inclusive of AEWWM fees for services described above and, if applicable, any third-party money manager utilized. Fees range from 0.60% to 1.40% annually based on several factors, including: the scope and complexity of the services to be provided; the level of assets to be managed; and the overall relationship with the Advisor. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

The wealth management fee in the first month of service is prorated from the inception date of the account[s] to the end of the first month. Fees may be negotiable at the sole discretion of the Advisor. The Client’s fees will take into consideration the aggregate assets under management with the Advisor. All securities held in accounts managed by AWP will be independently valued by the Custodian. The Advisor will conduct periodic reviews of the Custodian’s valuation to ensure accurate billing.

The Advisor’s fee is exclusive of costs and expenses described in Item 5.C below, which may be incurred by the Client. However, the Advisor shall not receive any portion of these commissions, fees, and costs.

B. Fee Billing

Wealth Management Services

Wealth management fees are calculated by the Advisor or its delegate and deducted from the Client’s account[s] at the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client’s account[s] at the end of the month. The amount due is calculated by applying average daily balance throughout the month. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the investment advisory fee. Clients are urged to also review and compare the statement provided by the Advisor to the brokerage statement from the Custodian, as the Custodian does not perform a verification of fees. Clients provide written authorization permitting advisory fees to be deducted by AWP to be paid

directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. Advantage Wealth Partners includes Covered Costs as part of its overall investment advisory fee through the Advantage Wealth Partners Wrap Fee Program. Securities transaction fees for Client-directed trades may be charged back to the Client. Please see Item 4.D. above as well as Appendix 1 – Wrap Fee Program Brochure.

In addition, all fees paid to AWP for wealth management services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of AWP, but would not receive the services provided by AWP which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by AWP to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

Wealth Management Services

AWP may be compensated for its investment management services in arrears in which services are rendered. Either party may terminate the investment advisory agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

AWP does not buy or sell securities to earn commissions and does not receive any compensation for securities transactions in any Client account, other than the wealth management fees noted above.

Insurance Agency Affiliations

Certain Advisory Persons are also licensed as independent insurance professionals. As an independent insurance professional, an Advisory Person may earn commission-based compensation for selling insurance products, including insurance products offered to Clients. Insurance commissions earned by the Advisory Person are separate and in addition to wealth management fees. This practice presents a conflict of interest as the Advisory Person who is also an insurance professional will have an incentive to recommend insurance products to the Client for the purpose of generating commissions rather than solely based on the Client's needs. Clients are under no obligation, contractually or otherwise, to purchase insurance products through any Advisory Person affiliated with the Advisor. Please see Item 10 below.

Item 6 – Performance-Based Fees and Side-By-Side Management

AWP does not charge performance-based fees for its wealth management services. The fees charged by AWP are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client.

AWP does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

AWP offers wealth management services to individuals, high net worth individuals, trusts, estates, and businesses. AWP generally does not impose a minimum relationship size, but AEWM requires a minimum of \$10,000 to open and maintain a portfolio management account. Please refer to the disclosure brochure of the Independent Manager for further information in reference to minimum account size.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

AWP primarily employs a fundamental, technical, cyclical, and charting analysis methods in developing investment strategies for its Clients. Research and analysis from AWP are derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. This criteria consists generally of ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that AWP will be able to accurately predict such a reoccurrence.

As noted above, AWP generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. AWP will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, AWP may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

We may employ the following investment strategies when managing client assets and/or providing investment advice:

Value investing

A value investing strategy selects stocks that trade for less than their intrinsic values. Value investors typically seek stocks of companies that they believe the market has undervalued. They believe the market overreacts to good and bad news, resulting in stock price movements that do not correspond with the company's long-term fundamentals. The result is an opportunity for value investors to profit by buying when the price is deflated. Often, value investors select stocks with lower-than-average price-to-book or price-to-earnings ratios and/or high dividend yields. The risks associated with value-investing include incorrectly analyzing and overestimating the intrinsic value of a business, concentration risk, under performance relative to major benchmarks, macro-economic risks, investing in value traps i.e. businesses that remain perpetually undervalued, and lost purchasing power on cash holdings in the case of inflation.

Strategic Asset Allocation

A strategic asset allocation strategy calls for setting target allocations and then periodically rebalancing the portfolio back to those targets as investment returns skew the original asset allocation percentages. The concept is akin to a

“buy and hold” strategy, rather than an active trading approach. Of course, the strategic asset allocation targets may change over time as the client’s goals and needs change and as the time horizon for major events such as retirement and college funding grow shorter.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. AWP will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals. Please see Item 8.B. for risks associated with the Advisor’s investment strategies as well as general risks of investing.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor’s review process are included below in Item 13 – Review of Accounts.

Each Client engagement will entail a review of the Client’s investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client’s account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client’s account[s]. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the Advisor’s investment strategies:

Market Risks

The value of a Client’s holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Bond Risks

Bonds are subject to specific risks, including the following: (1) interest rate risks, i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things, the bond’s time to maturity, and the coupon rate of the bond. (2) reinvestment risk, i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned, (3) inflation risk, i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor’s rate of return, (4) credit default risk, i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation, (5) rating downgrades, i.e. the risk associated with a rating agency’s downgrade of the company’s rating which impacts the investor’s confidence in the company’s ability to repay its debt and (6) Liquidity Risks, i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond.

Mutual Fund Risks

The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Alternative Investments (Limited Partnerships)

The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

Concentrated Portfolios

Concentrated portfolios are an aggressive and highly volatile approach to trading and investing and should be viewed as complementary to a stable, highly predictable investment approach. Concentrated portfolios hold fewer different stocks than a diversified portfolio and are much more likely to experience sudden dramatic price swings. In addition, the rise or drop in price of any given holding in the portfolio is likely to have a larger impact on portfolio performance, than a more broadly diversified portfolio.

Structured Notes

A purchaser should evaluate and understand all of the risks and costs of an investment in Structured Notes (SNs) prior to making any investment decision. A purchase of an SN entails other risks not associated with an investment in conventional bank deposits. A purchaser may not have a right to withdraw his/her investment prior to maturity or could incur substantial penalties for an early withdrawal, if permitted. A purchaser should carefully read the disclosure statement and any other disclosure documents for a SN before investing. An investment in SNs is not FDIC insured and is subject to credit risk. The actual or perceived creditworthiness of the note issuer may affect the market value of SNs. SNs will not be listed on any securities exchange. Even if there is a secondary market, it may not provide enough liquidity to allow purchasers to trade or sell SNs. As a holder of SNs, purchasers will not have voting rights or rights to receive cash dividends or other distributions or other rights in the underlying assets or components of the underlying assets. Certain built-in costs are likely to adversely affect the value of SNs prior to maturity. The price, if any, at which the notes can be purchased in secondary market transactions, if at all, will likely be lower than the original issue price and any sale prior to the maturity date could result in a substantial loss. SNs are not designed to be short-term trading instruments. Purchasers should be willing to hold any notes to maturity. The tax consequences of SNs may be uncertain. Purchasers should consult their tax adviser regarding the U.S. federal income tax consequences of an investment in SNs. If a SN is callable at the option of the issuer and the SN is called, the holder will receive only the applicable redemption amount and will not receive any coupon payments that would have been payable for the remainder of the term of the SN. SNs are Not FDIC Insured, May Lose Principal Value and are Not Bank Guaranteed.

Non-Purpose Loans and Lines of Credit

Non-purpose loans and lines of credit carry a number of risks, including but not limited to the risk of a market downturn, tax implications if collateralized securities are liquidated, and an increase in interest rates. A decline in the market value of collateralized securities held in the account[s] at the Custodian, may result in a reduction in the draw amount of the Client's line of credit, a demand from the Lending Program that the Client deposit additional funds or securities in the Client's collateral account[s], or a forced sale of securities in the Client's collateral account[s].

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss

these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving AWP or its owner. AWP values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor or Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or CRD# 329635.

Item 10 – Other Financial Industry Activities and Affiliations

Insurance Agency Affiliations

National Benefit Corp Legacy., d/b/a Advantage Retirement Group, has been a licensed insurance entity in the State of Florida and Maryland since 2024. The corporation is owned by Alfred M. Tounjian, who is also the President of the firm. Persons providing investment advice on behalf of our firm are licensed as independent insurance agents with AWP, an insurance agency and an affiliate entity. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with the Advisor.

AE Wealth Management, LLC

AWP may recommend that Client assets are managed by AE Wealth Management, LLC (herein "AEWM"), an Independent Manager, where affiliated entities of AEWM have ownership interest in the Advisor. As a result, any investment recommendation to the Independent Manager will result in AEWM to directly or indirectly benefit financially from additional investments made through AEWM and from returns generated by AEWM. Further, benefits and services of the Advisor is facilitated through AEWM, creating a potential incentive to invest Client assets through AEWM.

AWP will conduct appropriate due diligence to ensure any recommendation to a Client to invest through AEWM aligns with the Client's investment needs and objectives. Neither AWP nor its IARs will receive any additional compensation for investing Client funds through AEWM. Lastly, there is no requirement for AWP to recommend AEWM to Clients, nor are Clients obligated to invest through AEWM.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

AWP has implemented a Code of Ethics (the "Code") that defines the Advisor's fiduciary commitment to each Client. This Code applies to all persons associated with AWP ("Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to each Client. AWP and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of AWP's Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at 239-561-1155 or via email at compliance@savingtheinvestor.com.

B. Personal Trading with Material Interest

AWP allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. AWP does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. AWP does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

AWP allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that are recommended (purchase or sell) to Clients presents a conflict of interest that, as fiduciaries, must be disclosed to Clients and mitigated through policies and procedures. As noted above, the Advisor has adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons have a conflict of interest if trading in the same securities. The fiduciary duty to act in the best interest of its Clients can be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by AWP requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer (“CCO”) or delegate. The Advisor has also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While AWP allows Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will AWP, or any Supervised Person of AWP, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

AWP does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize AWP to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, AWP does not have the discretionary authority to negotiate commissions on behalf of Clients on a trade-by-trade basis.

Where AWP does not exercise discretion over the selection of the Custodian, it may recommend the Custodian to Clients for custody and execution services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost associated with using a custodian not recommended by AWP. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. AWP may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and its reputation and/or the location of the Custodian's offices.

AWP will generally recommend that Clients establish their account[s] at Charles Schwab & Co., Inc. (“Schwab”), or Fidelity Clearing and Custody Solutions and related divisions and entities of Fidelity Investments, Inc., including National Financial Services LLC, and Fidelity Brokerage Services LLC (collectively “Fidelity”), both FINRA-registered broker-dealers and members SIPC. Fidelity and Schwab will serve as the Client's “qualified custodian”. AWP maintains an institutional relationship with Fidelity and Schwab, whereby the Advisor receives economic benefits from Fidelity and Schwab (Please see Item 14 below.)

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with a broker-dealer/custodian in exchange for research and other services. **AWP does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from the Custodian. Please see Item 14 below.**

2. Brokerage Referrals - AWP does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a “directed brokerage basis”, where AWP will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any

security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). AWP will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of the order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. AWP will execute its transactions through the Custodian as authorized by the Client. AWP may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Clients' accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Dustin Meza, Chief Compliance Officer of AWP. Formal reviews are generally conducted at least annually or more frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify AWP if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by AWP

Participation in Institutional Advisor Platform: Fidelity Clearing and Custody Solutions

As noted in item 12, AWP has established an institutional relationship with Fidelity to assist the Advisor in managing Client account[s]. As part of the arrangement, Fidelity also makes available to the Advisor, at no additional charge to the Advisor, certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies. The Advisor may also receive additional services and support from Fidelity. As a result of receiving such services for no additional cost, the Advisor may have an incentive to continue to use or expand the use of Fidelity's services. The Advisor examined this potential conflict of interest when it chose to enter into the relationship with Fidelity and has determined that the relationship is in the best interests of the Advisor's Clients and satisfies its Client obligations, including its duty to seek best execution. Please see Item 12 above. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Fidelity. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a Custodian creates a conflict of interest since these benefits may influence the

Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services. In addition, Fidelity has provided the Advisor with financial support in the launch of the Advisor and reimbursements for various third-party service providers.

Participation in Institutional Advisor Platform: Charles Schwab & Co., Inc.

AWP has established an institutional relationship with Schwab through its "Schwab Advisor Services" unit, a division of Schwab dedicated to serving independent advisory firms like AWP. As a registered investment advisor participating on the Schwab Advisor Services platform, AWP receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client's funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients, but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services to AWP that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Access to these services creates a financial incentive for the Advisor to recommend Schwab, which results in a potential conflict of interest. AWP believes, however, that the selection of Schwab as Custodian is in the best interests of its Clients.

B. Compensation for Client Referrals

AWP does not compensate, either directly or indirectly, any persons who are not supervised persons, for Client referrals.

Item 15 – Custody

AWP is authorized to deduct its fees from the Client's account[s] at the Custodian. The Client must place all assets with a "qualified custodian." The Client is required to engage the Custodian to retain all funds and securities and direct AWP to utilize that Custodian for securities transactions in the account[s]. The Client should review statements provided by the Custodian, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

If the Client gives AWP the authority to move money from one account to another account, AWP may have custody of those assets. In order to avoid additional regulatory requirements, the Custodian and AWP have adopted safeguards to ensure that all money movement activities are conducted strictly in accordance with the Client's documented instructions.

Item 16 – Investment Discretion

AWP generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by AWP. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by AWP will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

AWP does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither AWP, nor its management, have any adverse financial situations that would reasonably impair the ability of AWP to meet all obligations to its Clients. Neither AWP, nor any of its Advisory Persons, have been subject to a bankruptcy or financial compromise. AWP is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect advance fees of \$1,200 or more for services to be performed six months or more in the future.

Item 4 – Services Fees and Compensation

A. Services

AWP provides customized wealth management services for its Clients. This Wrap Fee Program Brochure is provided as a supplement to the AWP Disclosure Brochure (Form ADV 2A). This Wrap Fee Program Brochure is provided along with the complete Disclosure Brochure to provide full details of the business practices and fees when selecting AWP as your investment advisor.

As part of the wealth management fees noted in Item 5 of the Disclosure Brochure, AWP includes, in addition to securities transaction fees, custody fees, administrative fees and Independent Manager fees (herein “Covered Costs”) as part of the overall investment advisory fee. Securities regulations often refer to this combined fee structure as a “Wrap Fee Program”. The Advisor’s recommended Custodian does not charge securities transaction fees for exchange-traded fund (“ETF”) and equity trades in Client accounts, but typically charges for mutual funds and other types of investments. The Advisor sponsors the AWP Wrap Fee Program.

The sole purpose of this Wrap Fee Program Brochure is to provide additional disclosure relating the combination of Covered Costs into a single “bundled” investment advisory fee. This Wrap Fee Program Brochure references back to the AWP Disclosure Brochure in which this Wrap Fee Program Brochure serves as an Appendix. **Please see Item 4 – Advisory Services of the Disclosure Brochure for details on AWP’s investment philosophy and related services.**

B. Program Costs

Advisory services provided by AWP are offered in a wrap fee structure whereby Covered Costs are included in the overall investment advisory fee paid to AWP. As the level of activity in a Client’s account[s] may vary from year to year, the annual cost to the Client may be more or less than engaging for advisory services where the Covered Costs are borne separately by the Client. The cost of the Wrap Fee Program varies depending on services to be provided to each Client, however, the Client is not charged more if there is higher trading activity or other Covered Costs. A Wrap Fee structure presents a conflict of interest as the Advisor is incentivized to limit the number of trades placed in the Client’s account[s] or to utilize securities that do not have transaction fees. As noted above, the Advisor’s recommended Custodians does charge securities transaction fees for ETF and equity trades in Client accounts, but typically charges for mutual funds and other types of investments. As such, the Advisor is incentivized to utilize ETFs and other equity securities to limit the overall cost to the Advisor. The Advisor will only place Client assets into a Wrap Fee Program when it is believed to be in the Client’s best interest. **Please see Item 5 – Fees and Compensation of the Disclosure Brochure for complete details on fees.**

C. Fees

Portfolio Management Services

Our maximum annual fee for portfolio management services is 1.0% of your assets we manage. Our advisory fee is negotiable, depending on individual client circumstances.

Fees and Compensation

Our annual portfolio management fee is billed as follows: Fees collected by AE Wealth Management are billed and paid to us monthly in arrears based on Average Daily Balance. Please see Item 5B of the Disclosure Brochure above for more details.

As noted above, the Wrap Fee Program includes Covered Costs incurred in connection with the discretionary investment management services provided by AWP, as part of its overall investment advisory fee.

In addition, all fees paid to AWP for wealth management services or part of the Wrap Fee Program are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund’s prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. Securities transaction fees for Client-

directed trades will be charged back to the Client. In connection with the discretionary investment management services provided by AWP, the Client will incur other costs assessed by the Custodian or other third parties, other than the Covered Costs noted above, such as [custodial costs / administrative fees / wire fees / trade away transactions / other fees and expenses]]. The Advisor does not control nor share in these fees. The Client should review both the fees charged by the fund[s] and the fees charged by AWP to fully understand the total fees to be paid. Please see Item 5.C. – Other Fees and Expenses in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

D. Compensation

AWP is the sponsor and portfolio manager of this Wrap Fee Program. AWP receives wealth management fees paid by Clients for participating in the Wrap Fee Program and pays the Covered Costs associated with the management of the Client's account[s].

Item 5 – Account Requirements and Types of Clients

AWP offers wealth management services to individuals, high net worth individuals, corporations, and other business. AWP generally does not impose a minimum account size for establishing a relationship. Please see Item 7 – Types of Clients in the Disclosure Brochure for additional information.

Related Persons

Performance-Based Fees

We do not accept performance-based fees or participate in side-by-side management. Performance-based fees are fees that are based on a share of a capital gains or capital appreciation of a client's account. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Our fees are calculated as described in the Fees and Compensation section above and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Supervised Persons

AWP Advisory Persons serve as portfolio managers for all accounts, including the services described in this Wrap Fee Program Brochure. Details of the advisory services provided are included in Item 4.A. of the Disclosure Brochure.

Methods of Analysis

Please see Item 8 of the Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on the research and analysis methods employed by the Advisor.

Risk of Loss

Investing in securities (including stocks, mutual funds, and bonds, etc.) always involves risk of loss. Depending on the different types of investments utilized, there may be varying degrees of risk. Accordingly, you should be prepared to bear investment loss including the loss of your original principal. Further, past performance is not indicative of future results. Therefore, you should never assume that future performance of any specific investment or investment strategy will be profitable.

Because of the inherent risk of loss associated with investing, our firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor. Please see Item 8.B. – Risk of Loss in the Disclosure Brochure for details on investment risks.

Proxy Voting

We will not vote proxies on behalf of your advisory accounts. We do not offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of applicable securities, you are responsible for exercising your right to vote as a shareholder.
